NOTES FROM THE

BAPTIST REVIVAL

In spite of the bad weather a small congregation gathered at the First Baptist church last evening. The subject of the pastors discourse was on the second coming of Christ. He showed that most of the prophecies relating to it had already been fulfilled, and expressed the opinion that the present war with Turkey would prove the fulfillment of one of the last. He said the people received this kind of a message as they did in the time of Noah.

Do You Know

that much inconvenience and endless suffering all over the body is caused by the

Feet?

Feet that tire easily and ache; feet with weak ankles; feet that are tender and burn; feet that feel uncomfortable and heavy as lead, are sure signs of weak insteps, and warning that you must beware of that terrible affliction—Flat-Foot.

What you mistake for "Rheumatism" in the limbs and back—the irritability that you charge to the liver—either of these may come from foot trouble. Reflex action from the nerves of the feet causes pain in the various organs and disturbs the whole system. You need

SCHOLL'S
Foot-Easzer
TRADE MARK
EASES THE FEET

In your shoes to give firm but elastic support to the arches of the feet—to relieve the tension of weak and aching ligaments and muscles that are letting the instep down.

Scholl's "Foot-Easzer" are scientific and anatomically correct supports for the instep. They are light, springy and comfortable in the shoes. Endorsed by highest medical authorities and worn all over the world by delighted thousands who have been relieved from their foot troubles forever.

Company Store System Under Fire.

Pittsburg, Pa., Jan. 23.—In both labor and industrial circles much interest is manifested in the hearing which will be begun tomorrow in the quo warranto proceedings started by Alexander P. Moore and others against the company store operated by the Jones and Laughlin Steel Company. The action marks the beginning of a crusade for the abolition of the system of company stores operated generally by mills, mines and factories throughout Pennsylvania. The promoters of the movement to abolish the company stores declare that the system robs the workingmen and keeps their families in poverty.

New Honor for Famous Inventor.
New York, Jan. 23.—Thomas A. Edison, the famous inventor, was today formally presented with the Rathenau medal by the American Museum of Safety. The medal is a replica of the original, which was presented by the Emperor of Germany to Dr. Emil Rathenau. The award of the honor to Mr. Edison was made in recognition of his invention of a storage battery device which reduces danger to life and health of workers employed in mines, tunnels, submarine boats, factories and other places where explosive gases generate.

TURKS GIVE UP FIGHT

WILL YIELD TO DEMANDS OF BALKAN ALLIES—PEACE WILL BE CONCLUDED SHORTLY.

Constantinople, Jan. 22.—Turkey has decided to surrender Adrianople to the Bulgarians.

The grand council of the Ottoman empire today voted in favor of accepting the proposals put forward by the European powers for the purpose of bringing about the conclusion of peace in the Balkans.

The note handed to the porte on January 17 by the European ambassadors called the Ottoman government's attention to the "grave responsibility it would assume if, by resistance to their councils, it should prevent the re-establishment of peace. It would have only itself to blame if the prolongation of the war had as a consequence to put in question the fate of the capital and perhaps to extend hostilities to the Asiatic provinces of the empire.

The powers called Turkey's attention to the fact that after the conclusion of peace it would have need of moral and material support of the powers only so long as it deferred to their counsel, inspired by the general interests of Europe and Turkey.

The powers advised Turkey to consent to the cession of Adrianople and to leave to them the fate of the Aegean islands.

Turkish losses in the naval battle with the Greek fleet off the Dardanelles on January 18 totalled four officers and thirty-six men killed, while 164 others were wounded.

During the fight a Greek shell exploded inside one of the turrets of the Turkish battleship Torguet Reosut killing and wounding every man in it and disabling both of the eleven-inch guns. The Turkish battleship Assar-I-Tewfik was badly damaged.

The Turkish gunners declare that they inflicted important losses on the Greeks.

This morning the News office received a new foot power perforator and some other much needed equipment which will be installed in the shop. The News always endeavors to keep up with its trade and to prepare to handle everything in the most expeditious manner possible.

THE LAW SAYS:

"We guarantee your money against loss if deposited in the **FARMERS STATE BANK** of Ada, because the Guaranty Law is backing that bank."

SEVEN-PIECE SET OF DECORATED CHINA--

This store is now promoting an unusual VALUE FEATURE. We give a coupon with every purchase from 5 cents up, and when a customer has accumulated \$50 worth of these coupons, he or she is entitled to our premium 7-piece-set of decorated china free. This premium costs you nothing. We do not raise the price on our elegant line of house furnishings to cover this—we just simply give it to you FREE OF COST.

PEOPLE'S FURNITURE CO.

JACKSON BROS., Proprietors

FRAME WILL STAND PAT

BACKED BY GOVERNOR WILL IGNORE LATEST ACTION OF SENATE.

Oklahoma City, Jan. 23.—The action of the senate Tuesday in making the rule that a majority of the membership of that body was required in confirming gubernatorial appointments, and the fact, according to such a rule, that Lon M. Frame did not receive such a majority and is held by the senate as not having been confirmed, will not disturb him in his position as chairman of the board of affairs. This was the position taken Wednesday by Governor Cruce, who, declining to discuss the matter at any length, simply said that no attention would be paid to the action of the senate, and that Frame would continue on the job. This probably means that the whole matter will finally have to be settled by the courts.

Just how the different matters involved will be grouped to present for review by the court will probably be arranged when the time comes for future action whatever that be. Much

Smith's

it is believed, will devolve upon just what kind of record will finally be completed relative to the action of the senate in special session when the confirmation vote on Frame was taken, which, according to the president of the senate had failed to confirm. The contention that the vote must also be shown will be one of the strong features of whatever proceedings come in future. It will be insisted that the record of the journal show the vote taken. In the way the record has been made so far, but incomplete as yet, it is also claimed that nothing can now be changed, as that was in a special session and that has been closed and finished, and whatever record was made then cannot be changed now.

The motion of the senate in adopting the minority report of the legal advisory committee, to the effect that a constitutional majority is required in making confirmations, is looked upon by some as an attempt to not only establish a law but to construe it also, which authority is questioned. This argument was made by some of the members of the senate in discussing the question previous to the final action of the body.

In the meantime, Lon Frame, as chairman of the board of affairs, will "stay on the job," at least until the court says he must vacate.

EPTING JURY HAS BEEN LOCKED UP

Memphis, Tex., Jan. 22.—The case against B. B. Epting, charged by indictment with complicity in the killing of Al G. Boyce by J. B. Sneed at Amarillo, Tex., last September, was submitted to the jury Wednesday night at 10 o'clock. Thirty minutes later the jurors announced that they would not return a verdict before tomorrow morning.

Senator D. W. Odell commenced the closing argument for the state tonight at 7 o'clock and finished it two hours and twenty minutes later. Judge Nabers finished reading his charge at 10 o'clock. The charge consisted of thirty-one sections and covered every phase of the case. There were also two special charges.

CONSOLIDATION OF COUNTY OFFICES PROPOSED

Oklahoma City, Jan. 23.—Committee reports were made on several bills in the senate at short session Wednesday morning and a number of new measures were introduced. The senate met to clear up as much work as possible for the day so that the members could participate in the joint meeting with the house in the election of United States Senator Robert L. Owen.

The bill by Pugh abolishing the fiscal agency of Oklahoma maintained in New York, and which makes the state treasurer that agent, was favorably reported. The bill by Pugh for the consolidation of the offices of reg-

ister of deeds and county clerk was also favorably reported. The bill by Garrett and Franklin requiring quarterly reports from justices of the peace was reported that it do pass, and a like report was made on the bill by Warner providing that counties under 10,000 shall consolidate the offices of clerk of the county court, county and district clerk and register of deeds. The bill by Senator Jones to abolish the office of deputy constable was reported on favorably.

A new insurance agent has located in Ada. He arrived a day or two ago and will make his home with Mr. and Mrs. E. J. Bell, 518 West 8th street. Mr. Bell is proud of his new partner and says he will make good in the business.

The People Who Put The Price Down
— ADA, OKLA. —

The Evening News

By The News Publishing and Printing Co.

OTIS WEAVER President
BYRON NORRELL Editor
A. B. YEAGER, Business Mgr.

Entered at the Post Office at Ada, Oklahoma, as second class mail matter.

The man who has not the nerve to face the music and stick to his post when things are not going as smoothly as he might wish never amounts to much anywhere. Times of depression come to every community and it is the man who sticks who reaps the reward when prosperity again comes. In this regard Ada has been one of the most fortunate towns in Oklahoma during the past year or two, although the failure of feed crops in 1911 caused something of a money stringency. Just now, however, the country apparently has a bright prospect and with another good crop or two this section will enjoy a period of prosperity unequalled in its history. The thing to do is for every man to put his shoulder to the wheel and help hurry up the band wagon all he can.

Angels on a Needle's Point.

This was a favorite topic of debate among the scholastic and doctors of the Christian church from the earliest time. It was particularly to the fore during the period of futile and quibbling argument which marked the decline of scholasticism, say from 1300 to 1450 A. D.

A town without a strong and well supported commercial organization is like a railroad with no rolling stock.

The Housekeeper has many trials, much to think of. Her mind must be clear and not clouded by headache.

Hicks' Capudine Cures Headache

— makes it easy to have your wits about you. It gets at the headache's cause—whether heat, cold, nervousness or gripp.

Blood Bath

Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, dissolves acid accretions, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all, this remarkable remedy is welcome to the weakest stomach, because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S. for it knocks the worst forms of rheumatism every time.

You can get it at any drug store at \$1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood specific ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga.

Where Is the Garden of Eden.

Forty miles west of old Bagdad, in the vast level valley of the historic Euphrates, near Hit of the Hittites, lies the traditional Garden of Eden. Such is the interesting conclusion of Sir William Willcocks, the famous Egyptian engineer and Bible student, and many other authorities agree with him.

"Out of Eden came a river which watered a garden, and from thence it was parted and became four rivers." And these four rivers, known in Bible days as the Pison, Gihon, Hiddekel and Euphrates—the ancient "River of Babylon"—have been identified by Sir William.

It was while studying, surveying and mapping Chaldea previous to starting work on the giant irrigation scheme planned for Mesopotamia, that Willcocks became convinced that the real Garden of Eden lay in the region described.

The Garden of Eden lies away over in Turkish-Arabia, too far from the beaten tourist trail to draw many sightseers. Probably not a dozen white travelers see it in a whole year. To reach Chaldea, the safest and surest route lies through the Suez, over Pharaoh's bones in the Red Sea, through the Straits of Bab-el-Mandeb, up the hot Persian Gulf, and thence five hundred miles up the winding Tigris and Euphrates. The Christian Herald.

SHOULD SEND DELEGATES TO MUSKOGEE MEETING

The agricultural conference that will be held at Muskogee February 4 is one of the most important events that will occur in Oklahoma during the present year. Its chief object is to bring business men and farmers closer together and to bring all possible pressure to bear on the national government to increase the appropriation for demonstration work in Eastern Oklahoma. A splendid corps of agents is now in the field working on meagre salaries which are paid partly by the national government and partly by commercial organizations in counties where they work.

Pontotoc county has been very fortunate in this regard. A. L. Kennedy has for the past year been hard at work among the farmers, and even in that short time has stirred up great interest among the farmers and as the result of following his directions, many of them greatly increased their crop yield during their first season. This year he is spreading out still more in his work. This morning F. F. Ferguson, district agent, stated to the News that the best cotton reports received from anywhere during the past year were from Pontotoc county, sent in by Mr. Kennedy.

Some months ago a big Chicago mail order house launched a movement to "aid the farmers" by offering to expend \$1,000 in every county that would duplicate the sum, this for a period of from one to three years. Of course this is more or less of a confidence game. The agent, part of whose salary would be paid by the people among whom he labored, would be all the time working under cover for his house and against the local business men. Ada certainly does not want to be a party to a scheme like that, but it is rumored that this proposition will be pressed at the Muskogee meeting. Aside from other more important considerations, Ada should be represented at this meeting to put in a most vigorous protest against sending any countenance whatever to such work in Eastern Oklahoma. The work of the government is disinterested, but this other is from purely selfish motives, and where the agents of the mail order house take hold the government will leave to them and confine its efforts to those sections that need and appreciate the work that is being done.

Mr. Kennedy would make a good delegate to this meeting and some business man should also be sent to represent the interests of Ada. Furthermore, the business interests of the city should pay their expenses, which in view of reduced rates on all railroads, would amount to very little. The railroads themselves are taking a deep interest in this meeting.

John B. Stewart was a passenger to Atoka this morning.

BEST For Every Baking CALUMET BAKING POWDER

Best—because it's the purest. Best—because it never fails. Best—because it makes every baking light, fluffy and evenly raised. Best—because it is moderate in cost—highest in quality.

At your grocers.

RECEIVED HIGHEST AWARDS World's Pure Food Exposition, Chicago, Ill. Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

"THE STORE WITH A CONSCIENCE"

Tribute to Womanhood.

James Oliver Curwood, author of "The Flower of the North," tells the following story about the men to be found in the country about Hudson bay, where the scene of this story is laid:

"I was at Prince Albert," he says, "sitting on the veranda of the little old Windsor hotel, facing the Saskatchewan. During the few days previous a number of factors, trappers and half-breed canoe men had come down from the north. One of these men had not been down to the edge of civilization for seven years. Three of the others had not been down in two, and this was the annual trip of the other eight—for there were just eighteen of us sitting there together.

"We were smoking and talking when a young woman turned up the narrow walk leading to the veranda. Immediately every voice was hushed, and as the woman came up the steps those twelve roughly clad men of the wilderness rose to their feet to a man each holding his cap in his hand. Thus they stood silent and with bowed heads, until the young woman passed into the hotel. It was the most beautiful tribute to womanhood I had

ever seen. And I, the man from civilization, was the only one who remained sitting, with my hat on my head!"—Denver News.

NORMAL NEWS.

(By Moike Cassidy.)

The boys' basketball team met today at noon and elected Ralph McMillan captain of the team. The selection was a most excellent one and was as well deserved. Aside from being a star player in basketball, he is a good student, and was one of the most consistent gridiron ground gainers at his place at half back this fall. He is also a good baseball player and will doubtless make the star team that Coach Little will put out this next spring.

The E. C. S. N. brass band will probably make its first public appearance at the banquet tonight. Mr. Fentem is to be congratulated upon the progress the band has made under his direction.

Miss Jimmie Payne of Havana, Ark., enrolled yesterday. Her sister, Miss Alice Payne enrolled last week and she was so well pleased that she prevailed upon her sister to come.

The banquet to be served tonight will be served in the dining room by E. C. N. girls. The food will be cooked in the kitchen under the direction of the E. C. N. teacher of domestic science. The flowers which will adorn the table have been raised in the E. C. N. green house and the temporary tables were made by the E. C. N. boys under the direction of the E. C. N. manual training teacher. The music will be furnished by E. C. N. boys under the instruction of an E. C. N. teacher. What is the matter with E. C. N.?

A letter from Mr. M. L. Perkins who is pursuing some studies at Chicago University states that he is well pleased with his work. Mr. Perkins is expecting to return at the beginning of the summer term.

The many friends of Miss Nannie Henderson will be sorry to learn that she is again ill at her sister's home in Paris, Texas.

The Y. W. C. A. conducted chapel this morning. E. C. N. is proud of her Y. W. C. A. girls for whatever they do they do it up brown.

Kansas House Against Intermarriages.

Topeka, Jan. 21.—The house in the committee of the whole, this afternoon recommended for passage a bill by Herr of Barber prohibiting the intermarriage of negroes and whites. The measure also prevents Mongolians and Caucasians, or Mongolians and negroes from marrying. An effort to place a prohibition upon the intermarriage of whites and Indians was lost.

The votes were taken aye and no, and almost all of the votes in favor of the measure came from the Democratic side of the house, while the republicans generally voted against it. When the measure came on for debate Stone of Shawnee moved that the enacting clause be stricken out. "I am opposed to the intermarriage of the whites and negroes," he said, "but I look upon this measure as an entering wedge for Jim Crow legislation. Our race does not need a law to keep the white people from marrying negroes. This law would be a gratuitous insult to a race that is already down. The governor in his message deprecates the passage of Jim Crow legislation. There is no necessity for this bill."

Speaker Brown said that the measure not only protects the whites, but the negroes as well. "I want to see the negroes move up," said the speaker, "but never at the expense of the race to which I belong."

LOVE NOT POSSIBLE.

"Don't you think there should be love between a man and woman who marry?" Gordon of Wyandotte asked of Satterthwaite, who opposed the measure.

"Certainly," was the answer.

"Well," said Gordon, "there can't be any more love between a negro man and a white woman than between a standpatter and a bull moose."

English People Long-Lived.

Within a stone's throw of each other at Stonham Parva, Suffolk, England, live 28 persons whose ages aggregate 2,121 years. One is ninety, two eighty-two, one eighty-one, four eighty, one seventy-eight, one seventy-six, three seventy-five, four seventy-four, six seventy-three, three seventy-two, one sixty-nine, and one sixty-eight.

Pretty Compliment.

The Disraels were visiting Strathfieldsaye in the time of the old duke of Wellington. Going up to the bedroom, Disraeli found his wife and her maid moving the bed from one side of the room to the other. When he inquired the reason, his wife said: "Well, my dear, the duke sleeps on the other side of the wall, and if I lie against it I can boast that I have slept between the two greatest men in England."—San Francisco Argonaut.

Pretty Sure.

Whenever a man is threatened by a deep sea he is pretty sure to find the devil on the other side of him.

SHOES---HATS---HOSE

SON OFF ON P.'S FIRST CRUISE

Jan. 22—Interesting memories recalled to the older generation by the announcement today of the departure of Prince Albert, the second son, on his first sea voyage as a cadet in the Royal Navy. Now almost thirty-five years of age, Prince George, who at that time was the second son, as is Prince Albert, departed from these shores on his first voyage three years ago on the globe. He accompanied his brother, the late Duke of Clarence, who was then the heir presumptive to the throne. The two princes were at midshipmen on the ship, commanded by Admiral Clannell. Under these auspices, the Duke of Clarence and Prince Albert saw for the first time the Indies, South America, Australia, China and other parts of the world.

Prince Albert, also a "sailor" like his father, is often in the eye and though because, like her in another respect, he may be to the throne through outliving or apparent. It is no reflection on Prince of Wales, heir to the throne, to say that his younger brothers are more popular with the public than he. The fact of the matter is that he is better known. As the king, the youthful Prince of Wales, especially during the past few years, has been hampered by restraints which naturally have been less severe in the case of Prince Albert. The latter has been allowed "more rope," and in consequence he has developed into a hearty, wholesome youth, full of life and imbued with a love for all outdoor sports and games. Many of his pranks have been recorded in print and in not a few of them his elder brother appears to have been the victim.

Prince Albert has just entered upon his eighteenth year. He entered the Naval College four years ago and proved an enthusiastic and diligent student. Two years were spent at Osborne, where he went through the initial stages of engineering, with workshop practice, seamanship, navigation, and the usual curriculum of the public school. He fared in exactly the same way as other cadets, with the same hours of study, the same

food and accommodation, and, like the other boys, with one shilling as pocket money and no tuck shop account allowed.

Two years ago, with the Prince of Wales, Prince Albert was shifted from Osborne to the splendid new Dartmouth College to complete his naval studies. At Dartmouth he has been under the same strict discipline as the other cadets. From the turn out at ten minutes to seven o'clock in the morning until the turn in at ten minutes past nine o'clock in the evening the cadets are under constant supervision and are for the most part kept fully occupied either in study or exercise.

The work at Dartmouth College is thorough and serious, the engineering shops providing, without doubt, the centre of attraction. Here Prince Albert has learned to handle properly the whirling machinery and fashion a polished spindle or make a joint which will resist a steam pressure of three hundred pounds to the square inch. In the school room he finished his theoretical subjects.

Now, aboard the armored cruiser Cumberland on which he and the other cadets embarked today, the Prince will learn the practical side of navigation, steamship and steam engineering. He is said to inherit his father's love for the sea and his natural aptitude for anything pertaining to steamship. He is undoubtedly a better sailor than his elder brother. Several years ago at Cowes, the story is told, the Prince of Wales made some criticism on the maneuvering of a yacht and was at once corrected by his younger brother in an audible and highly pointed remark concerning "duffers."

SPECIAL NOTICE

The civil service commission has agreed to allow graduates in our agricultural course to compete with students from other colleges for the position of Scientific Assistant in the Agricultural Department. This position pays \$1200 per year to start with. This opens the way for any ambitious young man who has been unable to attend out of the state schools. We teach you during your spare time. Write for catalogue and terms.—International Correspondence Schools, Scranton, Pa.

SENATE TO SEE MANY NEW FACES

Washington, D. C., Jan. 23.—The special session which is expected to begin soon after the inauguration of President Wilson will be an altogether new congress, the Sixty-third, of whose members 184, 23 senators and 161 representatives, will be new to their places. The unusually large number of new representatives is the result partly of the reapportionment which created many new congressional districts. But the political overturn is responsible almost wholly for the great change in the personnel of the senate.

The new senators will take the place of others, many of them long and widely known. Such, for example, are Senators Joseph W. Bailey of Texas, Shelby M. Cullom of Illinois, W. Murray Crane of Massachusetts, Joseph M. Dixon of Montana, Frank O. Briggs of New Jersey, Norris Brown of Nebraska, Jonathan Bourne Jr., of Oregon and Murphy J. Foster of Louisiana.

The fact that an unusually large number of the states are sending to the senate men well qualified for the place by reason of their previous legislative experience in the lower house of Congress is a subject of much favorable comment in Washington just now. A review of the list shows that a majority of the new men who will sit in the senate after March 4 have already served as representatives.

The toga of Senator Bailey of Texas, now worn temporarily by Col. R. M. Johnston, an appointee of the governor, will after March 4 fall upon the shoulders of Morris Sheppard, who has been a representative in congress the past ten years and has been looked upon as one of the Bryanite leaders in that body.

Another prominent member of the lower house who will be seen in the senate is John W. Weeks, who has been named to succeed Senator Crane of Massachusetts. Mr. Weeks, though a comparatively young man, has represented the Twelfth Massachusetts district since 1905. He is regarded as one of the best informed members of the house on military and naval matters.

Senator Foster of Louisiana will be succeeded by Joseph E. Ransdell, who has nearly fifteen years' service in the house to his credit. Mr. Ransdell is widely known as a leader of the movement for improved waterways. Since 1907 he has been president of the National Rivers and Harbors congress.

Edwin C. Burleigh, who has been selected by the Maine legislature to succeed Senator Gardner, has had much legislative experience, though he is not now a member of congress. After fifteen years in the house he fell a victim to the Democratic landslide in Maine two years ago.

Ollie M. James, who is to succeed Senator Paynter of Kentucky, has had ten years' experience in the lower house. Mr. James first became acquainted with the business of law-making at a very early age, when he served as a page in the Kentucky legislature.

Senator Norris Brown of Nebraska will be succeeded by George W. Norris, who for ten years has represented the Fifth Nebraska district in congress. The new senator gained prominence as one of the original republican "insurgents" in the house.

Another representative who will be seen in the senate after March 4 is William Hughes, the Democratic choice for the seat of Senator Briggs of New Jersey. Mr. Hughes has served four terms as the representative of the Sixth New Jersey district.

Several of the states have not yet selected their senators. When the elections are complete it is possible that one or more additions will be made to the foregoing list of present representatives in congress who will be seen in the senate when the extra session convenes a few weeks hence to take up the work of tariff revision.

Fought One Hundred Years Ago

Monroe, Mich., Jan. 18.—One hundred years ago today this place, then called Frenchtown, was the scene of a bloody conflict between the Americans on one side and a force of British and Indians on the other. The town was in possession of the British and was captured by the Americans under Gen. Winchester. Four days later, however, the place was retaken by the British under Gen. Proctor, and Gen. Winchester and his force were captured. The second conflict was followed by an Indian slaughter that is known in history as the River Raisin massacre.

AGRICULTURAL MEETING AT MUSKOGEE

To Eastern Oklahoma Special Agents: At a meeting of the Advisory Committee to adopt a plan of organization to be offered at the Eastern Oklahoma Agricultural Conference, which has been called for February 4th at Muskogee, the first paragraph of the plan to be submitted is as follows:

"The farmers' co-operative demonstration work now has 24 agents in 40 counties of Eastern Oklahoma, and one district agent, working under the direction of the State Agent. The Conference will, in whatever ways appear feasible, co-operate with the U. S. Department of Agriculture to extend this work to all of the counties of Eastern Oklahoma."

In view of the above outlined and the importance, this meeting expects to have in promoting the work carried on by you agents, I am particularly desirous that you select some one or more prominent business men from your community to represent your county at this conference.

This plan provides for a vice-president in each county becoming a member of this association. The Agricultural Secretary of the Muskogee Commercial Club has already taken up the matter with our representatives in Congress and in the Senate in an effort to increase the appropriation necessary to extend this work in every Eastern Oklahoma County, and for 12 months in the year, in our Department, and at this Conference an endeavor will be made to have each Commercial Club in this section of the State get behind this movement. These Commercial Clubs will receive a letter prior to this meeting to that effect, so you see it is doubly important that you be particularly attentive to select a prominent man to represent your community at this proposed Agricultural Conference.

Yours Very Truly,
F. F. FERGUSON.

District Agent, Eastern Oklahoma.

This Date in History.

- 1737—John Hancock, first signer of the Declaration of Independence, born in Quincy, Mass. Died there, Oct. 8, 1793.
- 1777—Americans under Gen. Maxwell captured Elizabethtown, N. J.

PARLIAMENT CONSIDERING WOMAN SUFFRAGE BILL

London, Jan. 22.—Shouts of "traitor!" were hurled across the floor of the House of Commons today when Premier Asquith refused to allow unlimited debate on suffragette amendments to the franchise reform bill. The debate is to be begun Friday. The speaker after much effort restored calm. The lobbies and precincts of the Houses of Parliament, as well as the political clubs and drawing rooms, are seething with intrigue.

Forecasts vary from hour to hour as to the probable fate of the amendment brought forward by Sir Edward Grey, which eliminates the word "male" from the first clause of the bill, and which, if carried, opens the way for amendments which will enfranchise a numerically varying army of women. All the members of the house are left to vote as they please on this amendment and the issue is likely to be decided by a score of voters either way.

There is a strong suspicion that when the votes have been counted, the suffragettes will find themselves disappointed, mainly because the militants have aligned so many of their supporters.

The three amendments which will come up for discussion, after the Grey amendment has been disposed of, propose respectively to enfranchise 1,000,000, 6,000,000 and 11,000,000 women.

The first of these would give the vote to wealthy and well-to-do women only, as it simply provides for the enfranchisement of women householders.

The second amendment proposes to give the franchise to women householders and also to the wives of electors and as this would fairly distribute the vote among all classes, it is received with much favor.

The third proposal comes from the labor party and would confer the vote on every woman over 21 years old.

So many conflicting interests are at work that it is impossible to say what may happen.

TENNESSEE LEGISLATURE DEADLOCKED OVER SENATOR

Nashville, Tenn., Jan. 22.—B. A. Enloe, who lacked six votes in the legislature today to elect him United States Senator from Tennessee, withdrew from the race tonight. K. D. McKellar, representative from the Tenth District also announced his withdrawal. Chief Justice John K. Shields, who led in the balloting today, is to be the candidate of the regular democrats. Enloe announces he will throw his strength to the independent democratic candidate who might take his place. Friends of Attorney General Charles T. Cates are endeavoring to secure that position for him.

TELEPHONE NUMBER FOUR.

YOUR SHARE OF A BURIED TREASURE

By C. H. Claudy

Digging into the ground for the buried loot of long-dead pirates and buccaneers has always had fascination, even for the most prosaic. Hardly a man but would dig, and dig hard and deep, if there were but the wildest probability that he could find a pot of gold or a chest of doubloons seven paces east and nine and a half north of the tip of the shadow of his oldest apple tree! Reaping where another has sown, getting something for a little of nothing—these be joyous events to us all! Indeed, they may be the farmer's.

But there is a form of treasure buried in the earth and mud which every man who uses a road, every farmer who owns a horse, every plant or who hauls crops to the market, can dig up, if he only will. The treasure is there, buried deep in the mud and slime of the rotten roads.

This is not more fanciful play on words. It is a fact. If you who read this live on or near any kind of a road not improved, you can go and dig up perfectly good money, if you only will.

Accompanying this statement are two pictures. They are actual photographs of actual scenes. One shows a man driving two horses, and a wagon to market, his "heavy" load consisting of one bale of cotton. He does not carry more than one bale of cotton because his horse are not strong enough. He can make only one trip a day because the market—or wagon station—is nine miles from the place where his cotton was baled. He is a small planter, and he has only twenty-four bales of cotton for his crop. His horse are not strong enough to haul his crop to market. You can add up any estimate you want for the driver and estimate for yourself the cost of feeding the horses. You also know the value of one man's labor and of two horses on a small farm or plantation. This value is lost to the small planter because his horse and his man are engaged in hauling the mud.

But let us be very conservative and say the driver gets fifty cents a day and that it costs another fifty cents a day to feed and stable the horses. It costs the planter, then, a dollar a day to haul his crop to market, and another dollar a day to hire a second team and man to do his farm work for the twenty-four days his own team is busy hauling. The farmer, then, is really "out" almost fifty dollars to get his work done and his cotton hauled to market, and this takes no account of the wear and tear on his team and his wagon and the liability he runs of injury to his horses.

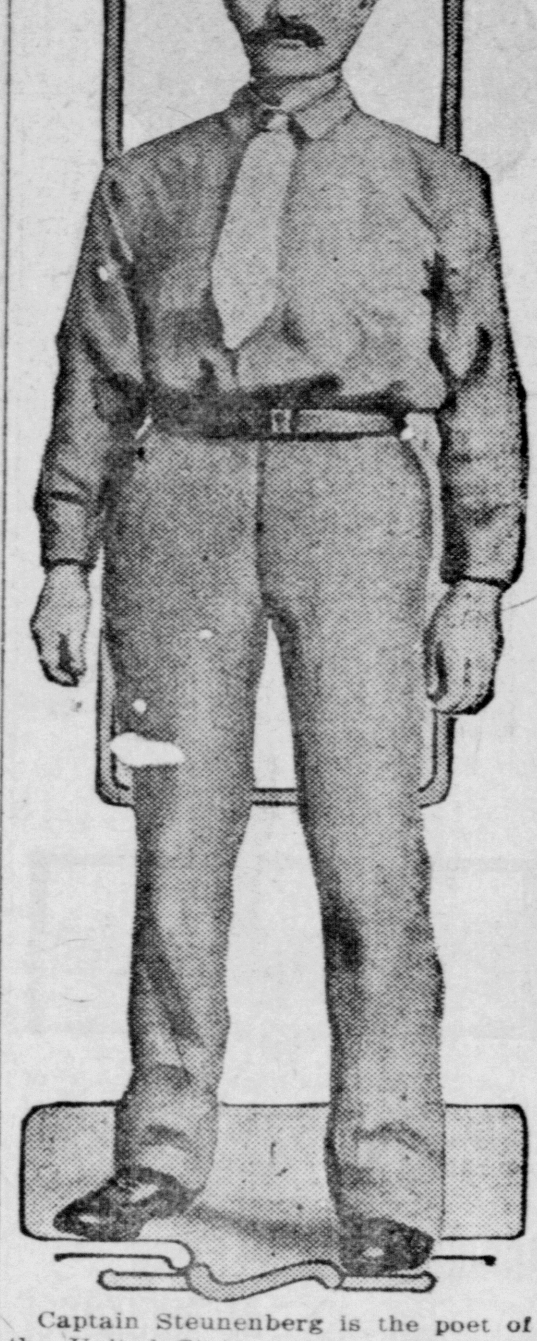

Now look at the other picture. Here a farmer has two horses and one driver, but because he has a road and not a mud-wallow to drive over he can carry twelve bales of cotton in one load, and he can make two trips per day, carrying twenty-four bales in one day, from his home to the railway station. That means a big saving to him.

His expense by the day is the same the other man's; that is fifty cents to the driver, fifty cents for the horse and the same for a team to work on the farm while his team is in use on the railway station. The man hauling the mud, then, is losing his share of the treasure buried in mud. He has a good road. He has dug up his loot. The first man has tramped almost half hundred dollars, into the mud with every step his horses take!

And this is for one crop and one hauling.

Now, of course, mud roads are not as bad as those shown in the first picture, nor are good roads always so good as those shown in the second picture. Nor is the amount of money set forth here as an example minimizing rather than emphasizing the true conditions. There are more than 200,000,000 tons of farm products hauled over the roads of the United States every year. The average distance—the mean of the great and the least—from farm to market, is 9.4 miles. The average costs of hauling in the United States is from twenty-three to twenty-five cents per ton per mile. The average cost on the good

CAPT. GEORGE STEUNENBERG

Captain Steunenberg is the poet of the United States army who wrote the verses about the German drilled troops of Turkey that amused the country and earned a reprimand for the author.

roads only of this country is from ten to twelve cents per mile.

Multiplying 2.4 (average distance) by twenty-three cents (average cost per ton per mile) by 200,000,000 (minimum tonnage hauled), and the result is the tidy sum of \$132,000,000 spent yearly in hauling by the farmers of this country. If the cost of hauling were cut in half, they would save \$66,000,000, which would build nearly 100,000 miles of good roads, all by itself.

Please note carefully that the average cost of hauling is more than cut in half on the good roads of this country. When Captain Kid buried treasure, he had gold and precious stones, silver, and money, objects of art and jewels and gems of all kinds. Look once at those pictures, then do not build themselves. They do pay for themselves when built, but some man has to finance and build them first. What are you going to do about your share of buried money. Do you answer?

Checks and Bank Notes that Speak.

Making checks or bank notes that are capable of speaking is one of the latest precautions, against forgery that has been invented. The note is given the power of utterance by a series of perforations. When the some prearranged phrase. When the prepared note is placed in a phonograph the phrase is reproduced in the presence of the person who has questioned the genuineness of the note.—From the February Popular Mechanics Magazine.

EARTH'S PAST IMMORTALIZED BY LIGHT

Not the least of the wonders of light is the truth that, through its agency, ordinary deeds and ordinary happenings, as well as all other kinds of affairs in this busy world of ours, are immortalized. We are accustomed to the idea that souls are immortal, that energy cannot be annihilated, that matter cannot be destroyed, but what of this extraordinary immortality of deeds? Simply this: Light that is reflected or given off from an object carries an image, a picture of the object, with which it on its travels through the flashing pictures of a second in coming from the face of a friend across the street, or whether they have reached the eye after a jump of 100,000 years through space from the flashing pictures of a far off star. Even as we see our nearest star neighbor not as it is today, but as it was four years ago the light is reflected to this star from our planet carrying the picture of the earth as it was 48 months ago, and any person, if at that distance from the earth and equipped with some means of collecting the light waves, would see events and deeds that had transpired on this earth in the year 1908!

Suppose we had such an apparatus and could out-travel light. We could journey to see Polar Star, 60 light years from the earth, and behold! we would see the earth as it was in the year 1822! If we journeyed nine years of light waves farther in toward the earth, we would intercept the light pictures showing the firing on Fort Sumpter in 1861. Even though every book and every manuscript, and every monument should be destroyed, the galaxy of charge of Longstreet, and the incomparable bravery of our northern and southern soldiers are written eternally on the earth with its pen and vanities, has crumbled to cosmic dust, or vanished into some other system, the light waves continue flashing eternally through space will continue to carry the comparatively brief story of man and his deeds.

If we traveled still farther out into space, and caught up with the light waves that left us 420 years ago, we would see Columbus, discovering America! The waves that left us about 700 years since would give us the picture of Runnymede, with John, sure named Lackland, signing the Magna Charta. Nearly 2,000 light years from the earth speed the waves that bear the story of Caesar's fame and the glory that was Rome's. Still farther out, hurtling through the eternity of unending space, is a picture from the dusty corridors of time, a picture of the earth when it was void and with out form, ages and ages before that wonderful creature, man, had entered the world of things. The picture is in the February Popular Mechanics Magazine.

The Sweat-Glands of Different Races.

Inasmuch as the regulation of body temperature is great facilitated by the evaporation of perspiration from the skin, the development of an efficient system of sweat-glands is a distinct advantage to those races which have to live in the warmer climates. It is often asserted that negro races are particularly adapted to residence in the tropics; and the question of the relative development of their sweat-glands is at once raised. Dr. Elbert Clark of the department of anatomy in the University of the Philippines at Manila has accordingly investigated the relative number of these in different people. After measurements on American soldiers, Philippine scouts and persons of both colors in civil life, he has come to the conclusion that the Malay possesses from 12 to 15 per cent. more sweat-glands than the white. Negroes have an excess of perhaps 7 per cent. Counts thus far made on Negroes give an excess of 25 per cent. for adults and 67 per cent. for youths. If these facts are substantial and the relative capacities of the individual glands in the races are proportional to their number, says The Journal of the American Medical Association, the dark-skinned dwellers of the tropics disclose an advantage over the white man with the latter can offset only by seeking greater shade.

Muskogee and Tulsa have joined hands in an effort to secure an appropriation to make the Arkansas river navigable. We hope they will succeed, for it would be a great thing to see some Oklahoma towns granted water roads. Go to it, boys.

Building Good Roads in Canada.

Edmonton, Alta., Jan. 16.—Good road building will be continued with added energy throughout the Province of Alberta this year, when it is expected to connect numerous market towns and shipping points with the main trunk highways and feeders. The provincial department of public works, headed by Hon. C. H. Mitchell, expended \$1,400,000 in improvement and betterment work upon permanent trunk roads and feeders and steel and wooden bridges last year.

Mr. Mitchell said at the parliament buildings in Edmonton today that the program for 1915 will be sufficiently extensive to meet the needs of the settlers in the newly opened agricultural districts and others making use of the public highways. The main highway of 420 miles connects, Athabasca in the north with Macleod in the south, by way of Edmonton and Calgary, while the main feeder, 100 miles in length, runs for the Paddle river through the Lake St. Anne district to Edmonton. Other roads will be built this year.

"An idea of the extent of the roads built by the government since the establishment of the province in 1905 is given," Mr. Mitchell said, "when it is known that the deputy minister of public works last year traveled more than 5,000 miles over government highways."

"The unprecedented activity in road building during the last few years has been one of the chief causes of difficulty in the way of establishing convenient public highways, as the opening of a new branch line and the springing up of a new town has frequently changed the trend of travel and increased the urgent work for the department, besides involving the outlay of large sums of money."

IRON WITH ELECTRICITY

Cheaper than wood or coal. More pleasant than doing nothing.

The price of HOT POINT ELECTRIC IRONS has been reduced to \$3.50. Let us demonstrate this iron for you.

PRE-INVENTORY REDUCTION SALE

OUR ANNUAL INVENTORY WILL BEGIN FEB. 3

It is easier to count money than measure goods, and besides we need money worse than we do merchandise. We have therefore decided to throw on the market our entire stock of Dry Goods, Notions, Ladies' and Gents' Furnishing Goods, Clothing, Hats, Shoes and in fact everything in our Dry Goods Department at prices that will clean them up by Feb. 1. **We are not going to make much Noise about it.** But we are going to exchange Merchandise for Cash, and we make this announcement, so that our customers and friends may know what we are doing, and come in and get their share of the bargains offered. We have stacks of good dependable merchandise that we are going to dispose of at sacrifice prices, and if you don't get your share of them, don't think hard of us for it. Hence this announcement--just to give you a hint of what we are doing. We quote a few prices--

Agents for Interurban Overalls. The over-all that's cut with a peg.

Every suit of Men's and Boy's clothing and overcoats, going at actual cost while they last. All Men's woolen underwear and wool over shirts at cost.

NOTICE TO CONTESTANTS FOR THE HOWARD TOURING CAR

We are now into January, the last month of the contest. Only 9 days remain in which you may win this valuable prize. Remember that after the close of business on February 1st your opportunity will be gone. Don't let this opportunity pass without consideration. You can win the prize if you will get busy. **DO IT TODAY.** Beginning Thursday, January 23rd, and continuing for 3 days, we will give 500 votes to the dollar in the Grocery Department and 1000 votes to the dollar in the Dry Goods Department. Beyond this date we cannot foretell what the vote will be on any article, as this will be under the control of a representative of the American Manufacturing Co., the people who furnish the car, who may change the vote on any article at any time. — This week number 23 won the Dinner Set. Next week we are going to give away another 42 **PIECE DINNER SET** to the one recording the largest number of votes as per rules. This a nice prize and worth trying for and is the last one that we will give away.

All Coupons given out now, are good until the final count at the close of the contest.

TURKS GIVE UP FIGHT

WILL YIELD TO DEMANDS OF BALKAN ALLIES—PEACE WILL BE CONCLUDED SHORTLY.

Constantinople, Jan. 22.—Turkey has decided to surrender Adrianople to the Bulgarians.

The grand council of the Ottoman empire today voted in favor of accepting the proposals put forward by the European powers for the purpose of bringing about the conclusion of peace in the Balkans.

The note handed to the porte on January 17 by the European ambassadors called the Ottoman government's attention to the "grave responsibility it would assume if, by resistance to the re-establishment of peace, it would have only itself to blame if the prolongation of the war had as a consequence to put in question the fate of the capital and perhaps to extend hostilities to the Asiatic provinces of the empire.

The powers called Turkey's attention to the fact that after the conclusion of peace it would have need of moral and material support of the powers only so long as it deferred to their counsel, inspired by the general interests of Europe and Turkey.

The powers advised Turkey to consent to the cession of Adrianople and to leave to them the fate of the Aegean islands.

Turkish losses in the naval battle with the Greek fleet off the Dardanelles on January 18 totalled four officers and thirty-six men killed, while 164 others were wounded.

During the fight a Greek shell exploded inside one of the turrets of the Turkish battleship Torguet Reosut killing and wounding every man in it and disabling both of the eleven-inch guns. The Turkish battleship Assar-i-Tewfik was badly damaged.

The Turkish gunners declare that they inflicted important losses on the Greeks.

This morning the News office received a new foot power perforator and some other much needed equipment which will be installed in the shop. The News always endeavors to keep up with its trade and to prepare to handle everything in the most expeditious manner possible.

FRAME WILL STAND PAT

BACKED BY GOVERNOR WILL IGNORE LATEST ACTION OF SENATE.

Oklahoma City, Jan. 23.—The action of the senate Tuesday in making the rule that a majority of the membership of that body was required in confirming gubernatorial appointments, and the fact, according to such a rule, that Lon M. Frame did not receive such a majority and is held by the senate as not having been confirmed, will not disturb him in his position as chairman of the board of affairs. This was the position taken Wednesday by Governor Crice, who, declining to discuss the matter at any length, simply said that no attention would be paid to the action of the senate, and that Frame would continue on the job. This probably means that the whole matter will finally have to be settled by the courts.

Just how the different matters involved will be grouped to present for review by the court will probably be arranged when the time comes for future action whatever that be. Much

it is believed, will devolve upon just what kind of record will finally be completed relative to the action of the senate in special session when the confirmation vote on Frame was taken, which, according to the president of the senate had failed to confirm. The contention that the vote must also be shown will be one of the strong features of whatever proceedings come in future. It will be insisted that the record of the Journal show the vote taken. In the way the record has been made so far, but incomplete as yet, it is also claimed that nothing can now be changed, as that was in a special session and that has been closed and finished, and what ever record was made then cannot be changed now.

The motion of the senate in adopting the minority report of the legal advisory committee, to the effect that a constitutional majority is required in making confirmations, is looked upon by some as an attempt to not only establish a law but to construe it also, which authority is questioned. This argument was made by some of the members of the senate in discussing the question previous to the final action of the body.

In the meantime, Lon Frame, as chairman of the board of affairs, will "stay on the job," at least until the court says he must vacate.

SEPTING JURY HAS BEEN LOCKED UP

Memphis, Tenn., Jan. 22.—The case against B. B. Epting, charged by indictment with complicity in the killing of Al G. Boyce by J. B. Speed at Amarillo, Tex., last September, was submitted to the jury Wednesday night at 10 o'clock. Thirty minutes later the jurors announced that they would not return a verdict before tomorrow morning.

Senator D. W. Odell commenced the closing argument for the state tonight at 7 o'clock and finished it two hours and twenty minutes later. Judge Nabbs finished reading his charge at 10 o'clock. The charge consisted of thirty-one sections and covered every phase of the case. There were also two special charges.

CONSOLIDATION OF COUNTY OFFICES PROPOSED

Oklahoma City, Jan. 23.—Committee reports were made on several bills in the senate at short session Wednesday morning and a number of new measures were introduced. The senate met to clear up as much work as possible for the day so that the members could participate in the joint meeting with the house in the election of United States Senator Robert L. Owen.

The bill by Pugh abolishing the fiscal agency of Oklahoma maintained in New York, and which makes the state treasurer that agent, was favorably reported. The bill by Pugh for the consolidation of the offices of reg-

ister of deeds and county clerk was also favorably reported. The bill by Garrett and Franklin requiring quarterly reports from justices of the peace was reported that it do pass, and a like report was made on the bill by Warner providing that counties under 10,000 shall consolidate the offices of clerk of the county court, county and district clerk and register of deeds. The bill by Senator Jones to abolish the office of deputy constable was reported on favorably.

A new insurance agent has located in Ada. He arrived a day or two ago and will make his home with Mr. and Mrs. E. J. Bell, 518 West 8th street. Mr. Bell is proud of his new partner and says he will make good in the business.

NOTES FROM THE BAPTIST REVIVAL

In spite of the bad weather a small congregation gathered at the First Baptist church last evening. The subject of the pastors discourse was on the second coming of Christ. He showed that most of the prophecies relating to it had already been fulfilled, and expressed the opinion that the present war with Turkey would prove the fulfillment of one of the last. He said the people received this kind of a message as they did in the time of Noah.

Company Store System Under Fire

Pittsburg, Pa., Jan. 23.—In both labor and industrial circles much interest is manifested in the hearing which will be begun tomorrow in the quo warranto proceedings started by Alexander P. Moore and others against the company store operated by the Jones and Laughlin Steel Company. The action marks the beginning of a crusade for the abolition of the system of company stores operated generally by mills, mines and factories throughout Pennsylvania. The promoters of the movement to abolish the company stores declare that the system robs the workmen and keeps their families in poverty.

New Honor for Famous Inventor

New York, Jan. 23.—Thomas A. Edison, the famous inventor, was today formally presented with the Rathenau medal by the American Museum of Safety. The medal is a replica of the original, which was presented by the Emperor of Germany to Dr. Emil Rathenau. The award of the honor to Mr. Edison was made in recognition of his invention of a storage battery device which reduces danger to life and health of workers employed in mines, tunnels, submarine boats, factories and other places where explosive gases generate.

THE LAW SAYS:

"We guarantee your money against loss if deposited in the **FARMERS STATE BANK** of Ada, because the Guaranty Law is backing that bank."

A STITCH IN TIME SAVES NINE—In Footwear as in everything else

THE SURPRISE STORE
 The People Who Put The Price Down
 — ADA, OKLA. —

OTIS WEAVER President
BYRON NORRELL Editor
A. B. YEAGER, Business Mgr.
Entered at the Post Office at Ada, Oklahoma, as second class mail matter.

The man who has not the nerve to face the music and stick to his post when things are not going as smoothly as he might wish never amounts to much anywhere. Times of depression come to every community and it is the man who sticks who reaps the reward when prosperity again comes. In this regard Ada has been one of the most fortunate towns in Oklahoma during the past year or two, although the failure of feed crops in 1911 caused something of a monetary stringency. Just now, however, the country apparently has a bright prospect and with another good crop or two this section will enjoy a period of prosperity unequalled in its history. The thing to do is for every man to put his shoulder to the wheel and help hurry up the band wagon all he can.

Angels on a Needle's Point.
This was a favorite topic of debate among the scholastic and doctors of the Christian church from the earliest time. It was particularly to the fore during the period of futile and quibbling argument which marked the decline of scholasticism, say from 1300 to 1450 A. D.

A town without a strong and well supported commercial organization is like a railroad with no rolling stock.

The Housekeeper has many trials, much to think of. Her mind must be clear and not clouded by headache.

Hicks' Capudine Cures Headache
— makes it easy to have your wits about you. It gets at the headache's cause—whether heat, cold, nervousness or gripp.
Capudine is quick acting, liquid, pleasant to take. 100 trial size proves its value. It's a headache remedy that has cured thousands. Capudine is sold the world over. At drug stores—10c per bottle.

Blood Bath Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every enunciate becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, dissolves acid accretions, renders healthy neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all, this remarkable remedy is welcome to the weakest stomach, because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The Great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S., for it knocks the worst forms of rheumatism every time.

You can get it at any drug store at \$1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood specific ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga.

Where is the Garden of Eden.

Forty miles west of old Bagdad, in the vast level valley of the historic Euphrates, near Hit of the Hittites—lies the traditional Garden of Eden. Such is the interesting conclusion of Sir William Willcocks, the famous Egyptian engineer and Bible student, and many other authorities agree with him.

"Out of Eden came a river which watered a garden, and from thence it was parted and became four rivers," And these four rivers, known in Bible days as the Pison, Gihon, Hiddekel and Euphrates—the ancient "River of Babylon"—have been identified by Sir William.

It was while studying, surveying and mapping Chaldea previous to starting work on the giant irrigation scheme planned for Mesopotamia, that Willcocks became convinced that the real Garden of Eden lay in the region described.

The Garden of Eden lies away over in Turkish-Arabia, too far from the beaten tourist trail to draw many sightseers. Probably not a dozen white travelers see it in a whole year. To reach Chaldea, the safest and surest route lies through the Suez, over Pharaoh's bones in the Red Sea, through the Straits of Bab-el-Mandeb, up the hot Persian Gulf, and thence five hundred miles up the winding Tigris and Euphrates.—The Christian Herald.

SHOULD SEND DELEGATES TO MUSKOGEE MEETING

The agricultural conference that will be held at Muskogee February 4 is one of the most important events that will occur in Oklahoma during the present year. Its chief object is to bring business men and farmers closer together and to bring all possible pressure to bear on the national government to increase the appropriation for demonstration work in Eastern Oklahoma. A special corps of agents is now in the field working on meager salaries which are paid partly by the national government and partly by commercial organizations in counties where they work.

Pontotoc county has been very fortunate in this regard. A. L. Kennedy has for the past year been hard at work among the farmers, and even in that short time has stirred up great interest among the farmers and as the result of following his directions, many of them greatly increased their crop yield during their first season. This year he is spreading out still more in his work. This morning F. F. Ferguson, district agent, stated to the News that the best cotton reports received from anywhere during the past year were from Pontotoc county, sent in by Mr. Kennedy.

Some months ago a big Chicago mail order house launched a movement to "aid the farmers" by offering to expend \$1,000 in every county that would duplicate the sum, this for a period of from one to three years. Of course this is more or less of a confidence game. The agent, part of whose salary would be paid by the people among whom he labored, would be all the time working under cover for his house and against the local business men. Ada certainly does not want to be a party to a scheme like that, but it is rumored that this proposition will be pressed at the Muskogee meeting. Aside from other more important considerations, Ada should be represented at this meeting to put in a most vigorous protest against leading any countenance whatever to such work in Eastern Oklahoma. The work of the government is disinterested, but this other is from purely selfish motives, and where the agents of the mail order house take hold the government will leave to them and confine its efforts to those sections that need and appreciate the work that is being done.

Mr. Kennedy would make a good delegate to this meeting and some business man should also be sent to represent the interests of Ada. Furthermore, the business interests of the city should pay their expenses, which in view of reduced rates on all railroads, would amount to very little. The railroads themselves are taking a deep interest in this meeting.

John B. Stewart was a passenger to Atoka this morning.

"THE STORE WITH A CONSCIENCE"

Tribute to Womanhood.

James Oliver Curwood, author of "The Flower of the North," tells the following story about Hudson bay, where the scene of this story is laid:

"I was at Prince Albert," he says, "sitting on the veranda of the little old Windsor hotel, facing the Sackatchewan. During the few days previous a number of factors, trappers and half-breed canoe men had come down from the north. One of these men had not been down to the edge of civilization for seven years. Three of the others had not been down in two, and this was the annual trip of the other eight—for there were just eighteen of us sitting there together.

"We were smoking and talking when a young woman turned up the narrow walk leading to the veranda. Immediately every voice was hushed, and as the woman came up the steps those twelve roughly clad men of the wilderness rose to their feet to a man each holding his cap in his hand. Thus they stood, silent and with bowed heads, until the young woman passed into the hotel. It was the most beautiful tribute to womanhood I had ever seen. And I, the man from civilization, was the only one who remained sitting, with my hat on my head!" —Denver News.

BEST For Every Baking CALUMET BAKING POWDER

Best—because it's the purest. Best—because it never fails. Best—because it makes every baking light, fluffy and evenly raised. Best—because it is moderate in cost—highest in quality.
At your grocers.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Less Manual Labor.
Lady—"You seem to like my apples." Tramp—"It's de only one I got dis week dat I didn't have to get at wit a can-opener."—Kansas Capital.

NORMAL NEWS.

(By Moike Cassidy.)

The boys' basket ball team met today at noon and elected Ralph McMillan captain of the team. The selection was a most excellent one and was as well deserved. Aside from being a star player in basketball, he is a good student, and was one of the most consistent gridiron ground gainers at his place at half back this fall. He is also a good baseball player and will doubtless make the star team that Coach Little will put out this next spring.

The E. C. S. N. brass band will probably make its first public appearance at the banquet tonight. Mr. Fentem is to be congratulated upon the progress the band has made under his direction.

Miss Jimmie Payne of Havana, Ark., enrolled yesterday. Her sister, Miss Alice Payne enrolled last week and she was so well pleased that she prevailed upon her sister to come.

The banquet to be served tonight will be served in the dining room by E. C. N. girls. The food will be cooked in the kitchen under the direction of the E. C. N. teacher of domestic science. The flowers which will adorn the table have been raised in the E. C. N. green house and the temporary tables were made by the E. C. N. boys under the direction of the E. C. N. manual training teacher. The music will be furnished by E. C. N. boys under the instruction of an E. C. N. teacher. What is the matter with E. C. N.?

A letter from Mr. M. L. Perkins who is pursuing some studies at Chicago University states that he is well pleased with his work. Mr. Perkins is expecting to return at the beginning of the summer term.

The many friends of Miss Nannie Henderson will be sorry to learn that she is again ill at her sister's home in Paris, Texas.

The Y. W. C. A. conducted chapel this morning. E. C. N. is proud of her Y. W. C. A. girls for whatever they do they do it up brown.

Kansas House Against Intermarriages.

Topeka, Jan. 21.—The house in the committee of the whole, this afternoon recommended for passage a bill by Herr of Barber prohibiting the intermarriage of negroes and whites. The measure also prevents Mongolians and Caucasians, or Mongolians and negroes from marrying. An effort to place a prohibition upon the intermarriage of whites and Indians was lost.

The votes were taken aye and no, and almost all of the votes in favor of the measure came from the Democratic side of the house, while the republicans generally voted against it. When the measure came on for debate Stone of Shawnee moved that the enacting clause be stricken out. "I am apposed to the intermarriage of the whites and negroes," he said, "but I look upon this measure as an entering wedge for Jim Crow legislation. Our race does not need a law to keep the white people from marrying negroes. This law would be a gratuitous insult to a race that is already down. The governor in his message deprecates the passage of Jim Crow legislation. There is no necessity for this bill."

Speaker Brown said that the measure not only protects the whites, but the negroes as well. "I want to see the negroes move up," said the speaker, "but never at the expense of the race to which I belong."

LOVE NOT POSSIBLE.

"Don't you think there should be love between a man and woman who marry?" Gordon of Wyandotte asked of Satterthwaite, who opposed the measure.

"Certainly," was the answer. "Well," said Gordon, "there can't be any more love between a negro man and a white woman than between a standpatter and a bull moose."

English People Long-Lived.

Within a stone's throw of each other at Stomham Parva, Suffolk, England, live 28 persons whose ages aggregate 2,121 years. One is ninety, two eighty-two, one eighty-one, four eighty, one seventy-eight, one seventy-six, three seventy-five, four seventy-four, six seventy-three, three seventy-two, one sixty-nine, and one sixty-eight.

Pretty Compliment.

The Disraelis were visiting Strathfieldsaye in the time of the old duke of Wellington. Going up to the bed room, Disraeli found his wife and her maid moving the bed from one side of the room to the other. When he inquired the reason, his wife said: "Well, my dear, the duke sleeps on the other side of the wall, and if I lie against it I can boast that I have slept between the two greatest men in England."—San Francisco Argonaut.

Pretty sure.

Whenever a man is threatened by a deep sea he is pretty sure to find the devil on the other side of him.

SON OFF ON HIS FIRST CRUISE

Jan. 22—Interesting memories recalled to the older generation by the announcement today of the departure of Prince Albert, the second son, on his first sea voyage as a cadet in the Royal Navy. Now almost thirty-five years of age, Prince George, who at that time was the second son, as is Prince Albert, departed from these shores on his first voyage three years ago. He accompanied his brother, the late Duke of Clarence, who was then the heir presumptive to the throne. The two princes sailed as midshipmen on the ship, commanded by Admiral Clannell. Under these auspices, Prince Albert and Prince George saw for the first time the Indies, South America, Australia, China and other parts of the world.

Prince Albert, also a "sailor" like his father, is often in the eye and though because, like her in another respect, he may be to the throne through outliving or apparent. It is no reflection on Prince of Wales, heir to the throne, to say that his younger brother is more popular with the masses than he. The fact of the matter is better known. As the king, the youthful Prince of Wales, especially during the past few years, has been hampered by restraints which naturally have less severe in the case of Prince Albert. The latter has been allowed "more rope," and in consequence he has developed into a hearty, wholesome youth, full of life and imbued with a love for all outdoor sports and pastimes. Many of his pranks have been recorded in print and in not a few of them his elder brother appears to have been the victim.

Prince Albert has just entered upon his eighteenth year. He entered the Naval College four years ago, proved an enthusiastic and diligent student. Two years were spent at Osborne, where he went through the initial stages of engineering, with workshop practice, seamanship, navigation, and the usual curriculum of the public school. He fared in exactly the same way as other cadets, with the same hours of study, the same

food and accommodation, and, like the other boys, with one shilling a pocket money and no tuck shop account allowed.

Two years ago, with the Prince of Wales, Prince Albert was shifted from Osborne to the splendid new Dartmouth College to complete his naval studies. At Dartmouth he has been under the same strict discipline as the other cadets. From the turn out at ten minutes to seven o'clock in the morning until the turn in at ten minutes past nine o'clock in the evening the cadets are under constant supervision and are for the most part kept fully occupied either in study or exercise.

The work at Dartmouth College is thorough and serious, the engineering shops providing, without doubt, the centre of attraction. Here Prince Albert has learned to handle properly the whirling machinery and fashion a polished spindle or make a joint which will resist a steam pressure of three hundred pounds to the square inch. In the school room he finished his theoretical subjects.

Now, aboard the armored cruiser Cumberland on which he and the other cadets embarked today, the Prince will learn the practical side of navigation, steamship and steam engineering. He is said to inherit his father's love for the sea and his natural aptitude for anything pertaining to steamship. He is undoubtedly a better sailor than his elder brother. Several years ago at Cowes, the story is told, the Prince of Wales made some criticism on the maneuvering of a yacht and was at once corrected by his younger brother in an audible and highly pointed remark concerning "duffers."

SPECIAL NOTICE

The civil service commission has agreed to allow graduates in our agricultural course to compete with students from other colleges for the position of Scientific Assistant in the Agricultural Department. This position pays \$1200 per year to start with. This opens the way for any ambitious young man who has been unable to attend out of the state schools. We teach you during your spare time. Write for catalogue and terms—International Correspondence Schools, Scranton, Pa.

Rags Wanted—With pay 2 cents per pound for large clean cotton rags. News office.

SENATE TO SEE MANY NEW FACES

Washington, D. C., Jan. 22.—The special session which is expected to begin soon after the inauguration of President Wilson will be an altogether new congress, the Sixty-third, of whose members 184, 23 senators and 161 representatives, will be new to their places. The unusually large number of new representatives is the result partly of the reapportionment which created many new congressional districts. But the political overturn is responsible almost wholly for the great change in the personnel of the senate.

The new senators will take the place of others, many of them long and widely known. Such, for example are Senators Joseph W. Bailey of Texas, Shelby M. Cullom of Illinois, W. Murray Crane of Massachusetts, Joseph M. Dixon of Montana, Frank O. Briggs of New Jersey, Norris Brown of Nebraska, Jonathan Bourne Jr. of Oregon and Murphy J. Foster of Louisiana.

The fact that an unusually large number of the states are sending to the senate men well qualified for the place by reason of their previous legislative experience in the lower house of Congress is a subject of much favorable comment in Washington just now. A review of the list shows that a majority of the new men who will sit in the senate after March 4 have already served as representatives.

The toga of Senator Bailey of Texas, now worn temporarily by Col. R. M. Johnston, an appointee of the governor, will after March 4 fall upon the shoulders of Morris Sheppard, who has been a representative in congress the past ten years and has been looked upon as one of the Bryanite leaders in that body.

Another prominent member of the lower house who will be seen in the senate is John W. Weeks, who has been named to succeed Senator Crane of Massachusetts. Mr. Weeks, though a comparatively young man, has represented the Twelfth Massachusetts district since 1905. He is regarded as one of the best informed members of the house on military and naval matters.

Senator Foster of Louisiana will be succeeded by Joseph E. Ransdell, who has nearly fifteen years' service in the house to his credit. Mr. Ransdell is widely known as a leader of the movement for improved waterways. Since 1907 he has been president of the National Rivers and Harbors Congress.

Edwin C. Burleigh, who has been selected by the Maine legislature to succeed Senator Gardner, has had much legislative experience, though he is not now a member of congress. After fifteen years in the house he fell a victim to the Democratic landslide in Maine two years ago.

Ollie M. James, who is to succeed Senator Paymaster of Kentucky, has had ten years' experience in the lower house. Mr. James first became acquainted with the business of law-making at a very early age, when he served as a page in the Kentucky legislature.

Senator Norris Brown of Nebraska will be succeeded by George W. Norris, who for ten years has represented the Fifth Nebraska district in congress. The new senator gained prominence as one of the original republican "insurgents" in the house.

Another representative who will be seen in the senate after March 4 is William Hughes, the Democratic choice for the seat of Senator Briggs of New Jersey. Mr. Hughes has served four terms as the representative of the Sixth New Jersey district.

Several of the states have not yet selected their senators. When the elections are complete it is possible that one or more additions will be made to the foregoing list of present representatives in congress who will be seen in the senate when the extra session convenes a few weeks hence to take up the work of tariff revision.

Fought One Hundred Years Ago

Monroe, Mich., Jan. 18.—One hundred years ago today this place, then called Frenchtown, was the scene of a bloody conflict between the Americans on one side and a force of British and Indians on the other. The town was in possession of the British and was captured by the Americans under Gen. Winchester. Four days later, however, the place was retaken by the British under Gen. Proctor, and Gen. Winchester and his force were captured. The second conflict was followed by an Indian slaughter that is known in history as the River Raisin massacre.

AGRICULTURAL MEETING AT MUSKOGEE

To Eastern Oklahoma Special Agents: At a meeting of the Advisory Committee to adopt a plan of organization to be offered at the Eastern Oklahoma Agricultural Conference, which has been called for February 4th at Muskogee, the first paragraph of the plan to be submitted is as follows:

"The farmers' co-operative demonstration work now has 24 agents in 40 counties of Eastern Oklahoma, and one district agent, working under the direction of the State Agent. The Conference will, in whatever ways appear feasible, co-operate with the U. S. Department of Agriculture to extend this work to all of the counties of Eastern Oklahoma."

In view of the above outlined and the importance, this meeting expects to have in promoting the work carried on by our agents, I am particularly desirous that you select some one or more prominent business men from your community to represent your county at this conference.

This plan provides for a vice-president in each county becoming a member of this association. The Agricultural Secretary of the Muskogee Commercial Club has already taken up the matter with our representatives in Congress and in the Senate in an effort to increase the appropriation necessary to extend this work in every Eastern Oklahoma County, and for 12 months in the year, in our Department, and at this Conference an endeavor will be made to have each Commercial Club in this section of the State get behind this movement. These Commercial Clubs will receive a letter prior to this meeting to that effect, so you see it is doubly important that you be particularly attentive to select a prominent man to represent your community at this proposed Agricultural Conference.

Yours Very Truly,

F. F. FERGUSON, District Agent, Eastern Oklahoma.

This Date in History.

- 1737—John Hancock, first signer of the Declaration of Independence, born in Quincy, Mass. Died there, Oct. 8, 1793.
- 1777—Americans under Gen. Maxwell captured Elizabethtown, N. J.
- 1806—William Pitt, the great English statesman, died. Born May 28, 1759.
- 1820—Duke of Kent, father of Queen Victoria, died. Born in 1767.
- 1834—St. Louis Castle, in Quebec, destroyed by fire.
- 1845—Congress fixed upon the first Tuesday after the first Monday in November as the time for the presidential elections.
- 1854—Stephen A. Douglas of Illinois, introduced the Kansas-Nebraska bill in the United States senate.
- 1896—France announced the annexation of Madagascar.

Falls 29 Stores and Still Lives. Cincinnati, O., Jan. 22.—William Coggan, a laborer, fell down an elevator shaft from the twenty-ninth floor of the Union Central building here Tuesday and lives.

When playfully attempting to grab the wires of the elevator, he lost his balance and toppled over. He is reported to have a fair chance to recover.

PARLIAMENT CONSIDERING WOMAN SUFFRAGE BILL

London, Jan. 22.—Shows of "traitor!" were hurled across the floor of the House of Commons today when Premier Asquith refused to allow unlimited debate on suffragette amendments to the franchise reform bill. The debate is to be begun Friday. The speaker after much effort restored calm. The lobbies and precincts of the Houses of Parliament, as well as the political clubs and drawing rooms, are seething with intrigue.

Forecasts vary from hour to hour as to the probable fate of the amendment brought forward by Sir Edward Grey, which eliminates the word "male" from the first clause of the bill, and which, if carried, opens the way for amendments which will enfranchise a numerically varying army of women. All the members of the house are left to vote as they please on this amendment and the issue is likely to be decided by a score of voters either way.

There is a strong suspicion that when the votes have been counted, the suffragettes will find themselves disappointed, mainly because the militants have aligned so many of their supporters.

The three amendments which will come up for discussion, after the Grey amendment has been disposed of, propose respectively to enfranchise 1,000,000, 6,000,000 and 11,000,000 women.

The first of these would give the vote to wealthy and well-to-do women only, as it simply provides for the enfranchisement of women householders.

The second amendment proposes to give the franchise to women householders and also to the wives of electors and as this would fairly distribute the vote among all classes, it is received with much favor.

The third proposal comes from the labor party and would confer the vote on every woman over 21 years old. So many conflicting interests are at work that it is impossible to say what may happen.

TENNESSEE LEGISLATURE DEADLOCKED OVER SENATOR

Nashville, Tenn., Jan. 22.—B. A. Enloe, who lacked six votes in the legislature today to elect him United States Senator from Tennessee, withdrew from the race tonight. K. D. McKellar, representative from the Tenth District also announced his withdrawal. Chief Justice John K. Shields, who led in the balloting today, is to be the candidate of the regular democrats. Enloe announces he will throw his strength to the independent democratic candidate who might take his place. Friends of Attorney General Charles T. Cates are endeavoring to secure that position for him.

YOUR SHARE OF A BURIED TREASURE

By C. H. Claudy

Digging into the ground for the buried loot of longdead pirates and buccaneers has always had fascination, even for the most prosaic. Hardly a man but would dig, and dig hard and deep, if there were but the wildest probability that he could find a pot of gold or a chest of doubloons seven paces east and nine and a half north of the tip of the shadow of his oldest apple tree! Reaping where another has sown, getting something for a little of nothing—these be joyous events to us all! Indeed, they may be to the farmer.

But there is a form of treasure buried in the earth and mud which every man who uses a road, every farmer who owns a horse, every plant or who hauls crops to the market, can dig up, if he only will. The treasure is there, buried deep in the mud and slime of the rotten roads,—he can have it if he will.

This is not mere fanciful play on words. It is a fact. If you who read this live on or near any kind of a road not improved, you can go and dig up perfectly good money, if you only will.

Accompanying this statement are two pictures. They are actual photographs of actual scenes. One shows a man driving two horses and a wagon to market, his "heavy" load consisting of one bale of cotton. He does not carry more than one bale of cotton because his horses are not strong enough. He can make only one trip a day because the market—or railway station—is nine miles from the place where his cotton was baled. He is a small planter, and he has only twenty-four bales of cotton for his crop. He does not expect to make a fortune on his cotton, but he does want to make a profit. It takes his two horses and one driver twenty-four days to haul his crop to market. You can add up any wage you want for the driver and estimate for yourself the cost of feeding the horses. You also know the value of one man's labor and that of two horses on a small farm or plantation. This value is lost to the small planter because his horses and his man are engaged in fighting the mud.

But let us be very conservative and say the driver gets fifty cents a day and that it costs another fifty cents a day to feed and stable the horses. It costs the planter, then a dollar a bale to haul his crop to market and another dollar a day to hire a second team and man to do his farm work for the twenty-four days his own team is busy hauling. The farmer, there is really "out" almost fifty dollars to get his work done and his cotton hauled to market, and this takes no account of the wear and tear on his team and his wagon and the liability he runs of injury to his horses.

Now look at the other picture. Here a farmer has two horses and one driver, but because he has a road and not a mud-wallow to drive over he can carry twelve bales of cotton in one load, and he can make two trips per day, carrying twenty-four bales in one day, from his home to the railway station. That means a big saving to him.

His expense by the day is the same the other man's; that is fifty cents to the driver, fifty cents for the horse and the same for a team to work on the farm while his team is in use hauling. Total \$2.00.

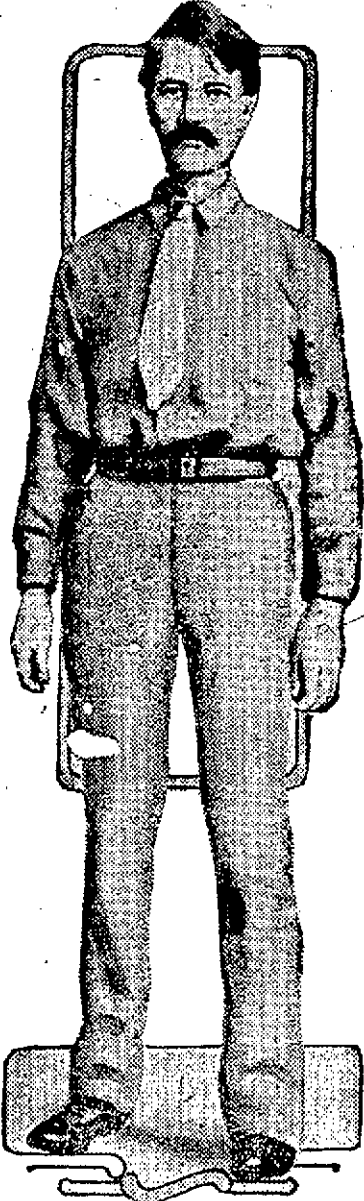

The difference, \$46, is this man's share of the treasure buried in mud. He has a good road. He has dug up his loot. The first man has tramped almost half hundred dollars into the mud with every step his horses take!

And this is for one crop and one hauling.

Now, of course, bad roads are not as bad as those shown in the first picture, nor are good roads always so good as those shown in the second picture. Nor is the amount of money set forth here as an example anything but imaginary. The man may get a dollar a day or ten cents a day, the horses may take two dollars a day for fodder and care, or cost next to nothing. No matter what the actual cost may be, you can't get away from the fact that one man and two horses need twenty-four days on the bad road to do the same work the same man and the same horses can do in one day on the good road!

But here are some figures which are under the established facts; they minimize rather than emphasize the true conditions. There are more than 200,000,000 tons of farm products hauled over the roads of the United States every year. The average distance—the mean of the great and the least—from farm to market, is 9.4 miles. The average costs of hauling in the United States is from twenty-three to twenty-five cents per ton per mile. The average cost on the good

CAPT. GEORGE STEUNENBERG

Captain Steunenberg is the poet of the United States army who wrote the verses about the German drilled troops of Turkey that amused the country and earned a reprimand for the author.

roads only of this country is from ten to twelve cents per mile.

Multiply 9.4 (average distance) by twenty-three cents (average cost per ton per mile) by 200,000,000 (minimum tonnage hauled), and the result is the tidy sum of \$432,400,000 spent yearly in hauling by the farmers of this country. If the cost of hauling were cut in half, they would save \$216,200,000, which would build nearly 100,000 miles of good roads, all by itself.

Please note carefully that the average cost of hauling is more than cut in half on the good roads of this country. When Captain Kid buried treasure, he had gold and precious stones, jewels and money, objects of art and silver and gems of all kinds.

Look once at these pictures, then at your own road. Remember, roads do not build themselves. They do pay for themselves when built, but some man has to finance and build them first. What are you going to do about your share of buried money. Do you answer?

Checks and Bank Notes that Speak.

Making checks or bank notes that are capable of speaking is one of the latest precautions against forgery that has been invented. The note is given the power of utterance by ap- pro of perforations representing some prearranged phrase. When the prepared note is placed in a phonograph the phrase is reproduced in the presence of the person who has questioned the genuineness of the note.—From the February Popular Mechanics Magazine.

EARTH'S PAST IMMORTALIZED BY LIGHT

Not the least of the wonders of light is the truth that, through its agency, ordinary deeds and ordinary happenings, as well as all other kinds of affairs in this busy world of ours, are immortalized. We are accustomed to the idea that souls are immortal, that energy cannot be destroyed, but what of this extraordinary immortality of deeds? Simply this: Light that is reflected or given off from an object carries an image, a picture of the object, with which it on its travels no matter how long the journey or whether it may trend. When these image-carrying light waves enter the eye, the picture they bear is revealed, whether the waves have been only the infinitesimal fraction of a second in coming from the face of a friend across the street, or whether they have reached the eye after a jaunt of 100,000 years through space from the flashing scintillations of a far off star. Even as we see our nearest star neighbor not as it is today, but as it was four years ago the light is reflected to this star from our planet carries pictures of the earth as it was 48 months ago, and any person, if at that distance from the earth and equipped with some means of collecting the light waves, would see events and deeds that had transpired on this earth in the year 1908!

Suppose we had such an apparatus and could out-travel light. We could journey to the Polar Star, 60 light years from the earth, and behold! we would see the earth as it was in the year 1852! If we journeyed nine years of light waves farther in toward the earth, we would intercept the light pictures showing the firing on Fort Sumpter in 1861. Even though every book and every manuscript, and every monument should be destroyed, the gallant charge of Longstreet, and the incomparable bravery of our northern and southern soldiers are written eternally on the scroll of the heavens. Long after the earth with its pomp and vanities has crumbled to cosmic dust, or vanished into some other system, the light waves continue flashing eternally through space will continue to carry the comparatively brief story of man and his deeds.

If we traveled still farther out into space, and caught up with the light waves that left us, say 420 years ago, we would see Columbus discovering America! The waves that left us about 700 years since would give us the picture of Rummymede, with John, surname Lackland, signing the Magna Charta. Nearly 2,000 light years from the earth speed the waves that bear the story of Caesar's fame and the glory that was Rome's. Still farther out, hurtling through the eternity of unending space, is a picture from far in the dusty corridors of time, a picture of the earth when it was void and without form, ages and ages before that wonderful creature, man, had entered the arena of life.—J. Gordon Ogden in the February Popular Mechanics Magazine.

The Sweat-Glands of Different Races.

Inasmuch as the regulation of body temperature is great facilitated by the evaporation of perspiration from the skin, the development of an efficient system of sweat-glands is a distinct advantage to those races which have to live in the warmer climates. It is often asserted that negro races are particularly adapted to residence in the tropics; and the question of the relative development of their sweat-glands is at once raised. Mr. Elbert Clark of the department of anatomy in the University of the Philippines at Manila has accordingly investigated the relative number of these in different people. After measurements on American soldiers, Philippine scouts and persons of both colors in civil life, he has come to the conclusion that the Malay possesses from 12 to 15 per cent. more sweat-glands than the white. Negroes have an excess of perhaps 7 per cent. Counts thus far made on Negritos give an excess of 27 per cent. for adults and 67 per cent. for youths. If these facts are substantial and the relative capacities of the individual glands in the races are proportional to their number, says The Journal of the American Medical Association, the dark-skinned dwellers of the tropics disclose an advantage over the white man with the latter can offset only by seeking greater shade.

Muskogee and Tulsa have joined hands in an effort to secure an appropriation to make the Arkansas river navigable. We hope they will succeed, for it would be a great thing to see some Oklahoma towns granted water rates. Go to it, boys.

Building Good Roads in Canada.

Edmonton, Alta., Jan. 16.—Good road building will be continued with added energy throughout the Province of Alberta this year, when it is expected to connect numerous market towns and shipping points with the main trunk highways and feeders. The provincial department of public works, headed by Hon. C. R. Mitchell, expended \$1,400,000 in improvement and betterment work upon permanent trunk roads, and feeders and steel and wooden bridges last year.

Mr. Mitchell said at the parliament buildings in Edmonton today that the program for 1913 will be sufficiently extensive to meet the needs of the settlers in the newly opened agricultural districts and others making use of the public highways. The main highway of 420 miles connects Athabasca in the north with Macleod in the south, by way of Edmonton and Calgary, while the main feeder, 100 miles in length, runs for the Paddle river through the Lake Ste. Anne district to Edmonton. Other roads will be built this year.

"An idea of the extent of the roads built by the government since the establishment of the province in 1905 is given," Mr. Mitchell said, "when it is known that the deputy minister of public works last year traveled more than 5,000 miles over government highways."

"The unprecedented activity in railroad building during the last few years has been one of the chief causes of difficulty in the way of establishing convenient public highways, as the opening of a new branch line and the springing up of a new town has frequently changed the trend of travel and increased the urgent work for the department, besides involving the outlay of large sums of money."

Daily Thought.
If those who are the enemies of innocent amusements had the direction of the world, they would take away the spring and youth, the former from the year, the latter from the human life.—Balzac.

CITY NEWS IN BRIEF

Loose leaf ledger's at Holley's. 223tf.

A. Kilpatrick was a passenger to Stonewall this morning.

Ladies or gentlemen, to travel; \$30 a month and expenses paid. Call at Travelers Hotel, room No. 3. 246-3t*

Kaffir corn for chicken feed at R. C. Jeter's. 248-4t

Rev. A. M. Dupree and wife, who have been here on a visit the past three days, will return to their home at Grove tomorrow.

M. M. Gubin returned today from Paula Valley and Stratford, where he has been looking after his business interests.

Rev. and Mrs. T. L. Rippey and family arrived today from Tennessee where they have been visiting relatives and will spend a week or ten days here as the guests of Mr. James L. Garrett and family. Rev. Rippey was formerly pastor of St. Paul's M. E. church. He is now residing in Sheridan, Wyo., having asked to be transferred from his charge here because of his wife's health. Rev. Rippey and his family have a host of friends here who are delighted to welcome them. Muskogee Times-Democrat.

This evening the musical Bensons will appear at the Majestic in all the splendor of their stage settings which cost \$1,000. Their musical instruments cost another \$2,000 from which it will be readily seen that these are artists of the highest type. There is beyond doubt the highest class act of the kind

POULTRY

SHOW OPENS

SPLENDID ARRAY OF FOWLS ON EXHIBIT AT PONTOTOC BLDG. JUDGE PASSING ON BIRDS.

The poultry show opened this morning as per announcement and by noon thirty-two coops of fine birds had been placed with others yet to follow.

Most of the exhibits are chickens, but there are three coops of turkeys and four of ducks. The Rhode Island Red chicken is most in evidence, although most every other variety is represented in the show. Orpingtons, both buff and white, are also prominent in the point of numbers. The variety and appearance of the birds is a real revelation to many, for most of the poultry raisers have been rather quiet about their birds heretofore, and few people had any idea of the work they have been accomplishing.

The work of judging the fowls began this afternoon and will be pushed as rapidly as possible. R. A. Davis of Farmersville, Tex., is the judge.

The show will continue two days yet and will be open every evening until 10 o'clock, thereby enabling many who are busy during the day to visit the show. As considerable expense has been incurred in getting up the show, a charge of 10 cents is made for admission.

Evidently the weather man has been getting his drinks badly mixed of late. Wednesday and today were both scheduled as fair. It rained all day Wednesday and the forecast for today was changed to rain. However, it has been a beautiful day. For tomorrow the prediction is rather vague, reading "probably fair and colder."

"THE STAR OF BETHLEHEM"

A WONDERFUL DEVOTIONAL SUBJECT, SHOWING THE BIRTH OF CHRIST. PRODUCED IN FAITHFUL ACCORDANCE WITH THE BIBICAL STORY AND CORRECTLY COSTUMED IN THE GARB OF THE PERIOD. A MASTERPIECE IN THEME, ACTING AND PHOTOGRAPHY. PICTURIZATION OF THE BIRTH OF CHRIST, THE STORY BEAUTIFUL FROM THE BIBLE—DELEGATE THEME REVERENTLY PRESENTED IN AN ARTISTIC MANNER BY THE FAMOUS THANHOUSER COMPANY—THREE BIG REELS.

MUSIC

In the interpretation of a masterpiece of this kind, the utmost skill is required. WILLIAMS AND ROSE, the last word in picture dramatizing, will dramatize "The Star of Bethlehem" in a manner in which you will be amazed at the wonderful effect attained therefrom. They will use an organ and piano combined, a most pleasing effect and the first time used in this city. WILLIAMS AND ROSE have a wide reputation as dramatizers and musicians and will demonstrate as heretofore, that they are capable of handling the most difficult situations. THE LEADING CHARACTERS IN THE STAR OF BETHLEHEM ARE: James Cruze, Flo LaBadie, William Russell, Harry Donham, Jutes Barnes, Charles Moran, Riley Chamberlain, David The Thompson, Marguerite Snow, Williammpson, Margrite Snow, William Carwood and the Thanhouser Kid.

"The Star of Bethlehem"

Is an artistic offering which has never been equalled in moving pictures, endorsed by clergy and press. In presenting this magnificent film in three reels (3,000 feet) to its patrons at enormous expense, this theatre is endeavoring to demonstrate to the public that the finest moving pictures in the world are shown here, regardless of cost.

ever seen in Ada. Although the Benson program is in itself well worth double the price of admission, Manager Ward will also give two fine pictures. One of these will feature Maurice Costello in "Lord Browning and Cinderella." The other will be Alkali Ike's Close Shave, a roaring western comedy.

For Gettysburg Reunion. Philadelphia, Pa., Jan. 23.—Commissioners appointed by the governors of a number of the states are attending a conference which was begun here today, to discuss final plans for the celebration next summer of the fiftieth anniversary of the battle of Gettysburg. Both the Grand Army and the United Confederate Veterans are officially represented at the conference.

Execution in Vermont. Windsor, Vt., Jan. 23.—Preparations have been completed by the authorities of the state prison here for the execution tomorrow of Arthur Bosworth, who was convicted at Burlington of first degree murder in the killing of Miss May Labell, a depot waitress at Essex Junction. The murder occurred on June 7, 1911, and was caused, according to the evidence, by the victim's repulsing Bosworth's attentions. Both the State supreme court and the house of representatives have declined to commute the death sentence.

Women's Colleges Consolidate. Nashville, Tenn., Jan. 23.—Ward Seminary and Belmont college, two of the leading schools for girls in the South, have been consolidated under the name of Ward-Belmont college. Dr. Ira Landrich, president of Ward and former president of Belmont, will become the president of the consolidated school.

EASY AND SURE WAY TO CURE COLDS

Don't Neglect a Cold, Ely's Cream Balm Will Stop it in the Sneezing Stage.

A cold generally attacks the weakest part, affecting the eyes and ears in some and producing nasal catarrh throat troubles in others. A cold is due to an inflammation of the membrane lining the air passages, and may be promptly cured with Ely's Cream Balm, which immediately relieves the inflammation and all the distressing symptoms such as sneezing, coughing, running at the nose and nose and eyes, hoarseness, sore throat, fever and headache. One reason why this pure, antiseptic Balm acts so quickly is because it is applied directly to the tender, sore surfaces.

Even in severe, chronic cases of catarrh, Ely's Cream Balm never fails to quickly and effectually check the poisonous discharge which clogs the head and throat, causing the disgusting hawking, spitting and blowing of the nose. This remedy not only drives out the disease, but heals and strengthens the weakened membranes, thus ending catarrh.

Catarrh is a filthy, disgusting disease. Don't put up with it another day. Get a 50-cent bottle of Ely's Cream Balm from your druggist and see how quickly you will be relieved. It is perfectly harmless. Agents, Gwin & May's Drug Co., Ada, Okla.—adv.

Judge C. A. Garbraith returned this morning from a business trip to Oklahoma City. While there he witnessed the formal election of Senator Owen to a second term.

THREE RUN AWAY BOYS BROUGHT IN

This morning Marshal Lance of Francis brought back two Ada kids who had started out to see the world and had made their first stop at Francis. He also brought in a youngster who had escaped from the state reform school at Paula Valley a few days ago and who was beating his way back towards Muskogee where he lived. He said he had been given a sentence of four years and had served five days of the time when he took his leave. He will be sent back to serve the remainder of his time.

The Star of Bethlehem is the attraction at the DeSota this evening and for magnificence and impressive scenery will surpass anything ever seen heretofore. This picture has made the rounds of the larger cities of Oklahoma and from press reports noticed by the News it has every where

met with the heartiest reception. As its name suggests, this picture deals with the events attending the birth of Christ. Everything possible has been done to reproduce the scenes and costumes of the day, and at a tremendous expense the picture was produced in its masterful perfection. The music accompanying a work of art like this must necessarily be in the hands of real talent, and this evening the ever popular Williams and Rose will interpret this picture.

NOTICE MOOSE. Moose Lodge meets on Friday night instead of Thursday. All members be present. 2td

NOTICE. The Patrons' Club of the Willard school will meet tomorrow afternoon at 3 p. m. some important business. Be sure to attend. 248-1td MRS. M. L. PERKINS.

PRE-INVENTORY REDUCTION SALE

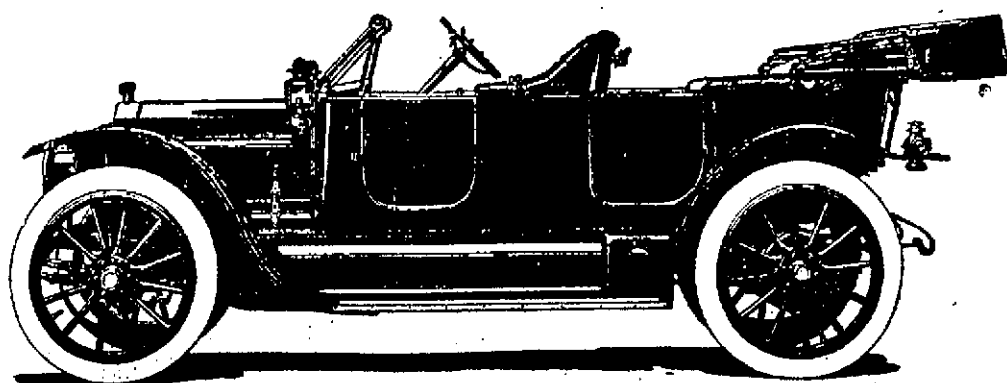

OUR ANNUAL INVENTORY WILL BEGIN FEB. 3

It is easier to count money than measure goods, and besides we need money worse than we do merchandise. We have therefore decided to throw on the market our entire stock of Dry Goods, Notions, Ladies' and Gents' Furnishing Goods, Clothing, Hats, Shoes and in fact everything in our Dry Goods Department at prices that will clean them up by Feb. 1. **We are not going to make much Noise about it.** But we are going to exchange Merchandise for Cash, and we make this announcement, so that our customers and friends may know what we are doing, and come in and get their share of the bargains offered. We have stacks of good dependable merchandise that we are going to dispose of at sacrifice prices, and if you don't get your share of them, don't think hard of us for it. Hence this announcement--just to give you a hint of what we are doing. We quote a few prices--

<p>Agents for Interurban Overalls. The over-all that's cut with a peg. Every suit of Men's and Boy's clothing and overcoats, going at actual cost while they last. NOTICE TO CONTESTANTS FOR THE HOWARD TOURING CAR

We are now into January, the last month of the contest. Only 9 days remain in which you may win this valuable prize. Remember that after the close of business on February 1st your opportunity will be gone. Don't let this opportunity pass without consideration. You can win the prize if you will get busy. **DO IT TODAY.** — Beginning Thursday, January 23rd, and continuing for 3 days, we will give 500 votes to the dollar in the Grocery Department and 1000 votes to the dollar in the Dry Goods Department. Beyond this date we cannot foretell what the vote will be on any article, as this will be under the control of a representative of the American Manufacturing Co., the people who furnish the car, who may change the vote on any article at any time. — This week number 23 won the Dinner Set. Next week we are going to give away another 42 **PIECE DINNER SET** to the one recording the largest number of votes as per rules. This a nice prize and worth trying for and is the last one that we will give away.

All Coupons given out now, are good until the final count at the close of the contest.

YOURS FOR BUSINESS,

ADA TRADING CO.
